Present your innovative ideas: join SEATEC-COMPOTEC 2019 “STARTUP ARENA”!

IMM - CarraraFiere is glad to offer you the opportunity to present your innovative products during the next **Seatec** -16th International Exhibition of Technology, Subcontracting for Boats, Yachts and Ships, which will take place together with **Compotec**, 10th International Exhibition Composites and Related Technologies, **from April 3 to 5, 2019**.

Both exhibitions address exclusively **professional visitors** who look for – and find - the best of nautical components and technologies for shipbuilding, in addition to the composite materials in their various fields of application.

Acting as prominent promotional events for the sector of innovation, Seatec and Compotec wish to offer you the chance to introduce your products and/or services **participating with an exhibiting stand of 9 sq. m. (prefitted) in a specifically dedicated area called STARTUP ARENA**: a central conference area that, throughout the event, will host seminars, conferences, professional training courses and demonstrations.

Benefits for each participating start-up:

- ✓ Exhibiting its products in a pre-fitted 9 sq.m. stand (3x3);
- ✓ Taking part in the business-to-business meetings organised by IMM - CarraraFiere with foreign and national buyers;
- ✓ Booking a 30-minute slot in the Arena conference programme to give a presentation of the innovative product proposed;
- ✓ Competing with the other start-ups during the final *Elevator Pitch*¹ at the end of which a panel of experts will announce the most innovative start-up of the Arena (awarded with a price²);
- ✓ Being inserted in the SeatecCompotec 2018 official catalogue;
- ✓ Being inserted in the online catalogue of website www.sea-tec.it e www.compotec.it;
- ✓ Being included in a large media coverage dedicated to the event through press releases, newsletter and social media.

¹ The Elevator Pitch is a competition in which every start-up presents itself to a technical board in only 5 minutes, strictly clocked. It is a very dynamic event that obtains a good public success and significant attention from the press, and at the same time allows the start-up to test itself and promote its innovation.

² The price is being developed
